

Homework 6

Rollup comparisons

1. Discuss in your teams the rollup L2s that you have experience with
2. What factors are important to you when choosing a rollup ? , in particular discuss the criteria we covered in the lesson.

Rust practice

Fizz buzz program

1. Create a project called bootcamp using Cargo
2. The main function should print a welcome message.
3. Write a 'fizz buzz' function that will be called from your main function.
 1. The function should have a loop counting up to 301
 2. If the count is divisible by 3, print "fizz"
 3. If the count is divisible by 5 print "buzz"
 4. If the count is divisible by 3 and 5 print "fizz buzz"
 5. At the end print the number of times "fizz buzz" occurred.
